September 2020

Phase One CT Scanner

## **Capital Campaign for Diagnostic Center Raises \$21 Million!**

Our community has made it possible for our hospital to have a state-of-the-art diagnostic center. What a gift for all of us!

The Foundation is incredibly grateful to the over 400 donors who contributed toward creating the best possible imaging and diagnostics available in the convenience of our own community. From our campaign volunteers, to our lead donors, to every person and family who contributed, and to the key staff at the hospital....we say,  
**THANK YOU!!**

includes the 3Tesla MRI machine, has been approved to move forward now that the fundraising is complete, and is scheduled to be finished in mid-2021.

## Serving Our Community Through The Pandemic

Never has the value of having our high quality hospital right in our community been more apparent. Since the beginning of the COVID-19 Pandemic, our hospital prepared for this virus and now implements those plans to serve the Valley with excellent healthcare. The affiliation with UCSF has been especially helpful, with ongoing guidance regarding their best practices and access to equipment and resources.

Every day, Sonoma Valley residents come to us on their healthcare journey, whether urgent or planned, and receive outstanding care close to home.

Because we are all neighbors, and the Valley thrives when we are each at our best.

[Find out more about our hospital's response to the pandemic here.](#)
